

## LIVING WITH A GREEN HEART

“Exploring the old and deducing the new makes a teacher”

Confucius, Chinese philosopher and politician

Dear Green Heart Warriors, dear Living with a Green Heart members,

The transformation of society to become more sustainable is not the job of one person, one company or one organisation. To live sustainability holistically (care and respect for ourselves, our communities, our environment and for the economic benefit of all) we must remember what our ancestors realised long ago and what ancient tribes still follow today. Life should not be about winning and beating our opponents, but enduring and sustaining and trying to be the best we can (as an individual, company and society) all times. We should remember the wisdom of our ancestors and adapt it to fit to the modern times.

With this in mind, the **Living with a Green Heart Foundation** and the **Reinvention Academy** would like to invite you to a special summer event that will remind us of the importance of approaching sustainability holistically by putting people first.

Reinvent Yourself,  
Your Company,  
Your World.  
Live with a Green Heart

### JUNE LIVE EVENT

# Powering Up Creativity for a Sustainable and Resilient World

We would like to invite you to join us for  
summer event on June 22<sup>nd</sup>, 2023 from 1:00 PM - 4:30 PM CET  
at KI EXPERIENCE CENTER

## Your Hosts

**Dr. Nadya Zhexembayeva**

Chief Reinvention Officer, Founder of the Reinvention Academy and global movement

Nadya helps companies and their leaders turn disruption into opportunity. Her mission is simple: To provide one billion people with strong resilience and reinvention skills so that we can all ride the waves of change, rather than get crushed by them.

**Dr. Saša Bavec**

Director and co-founder of Living With a Green Heart Foundation

Saša believes people cannot be pushed and forced to give their creativity and smartness every morning when they come to work. It is their decision and they are ready to give “themselves at their best” to the company only when they feel well.

### About the topic:

Only people who feel positive and are open-minded can drive the transformation of society. We need to reinvent ourselves, our businesses, the way we lead people and create the environment they work in, so that everyone can be their best selves and contribute to a better world for all.

Every second of every day, things change, even us. Our past should be honoured and, as Confucius said, we should explore and understand it, but then deduce from it new ways of doing that reflect the changes in the world.

That is called reinvention. It requires hard work and walking the path less trodden, but there are tools that could be used to support you on the journey.

### Agenda of the event:

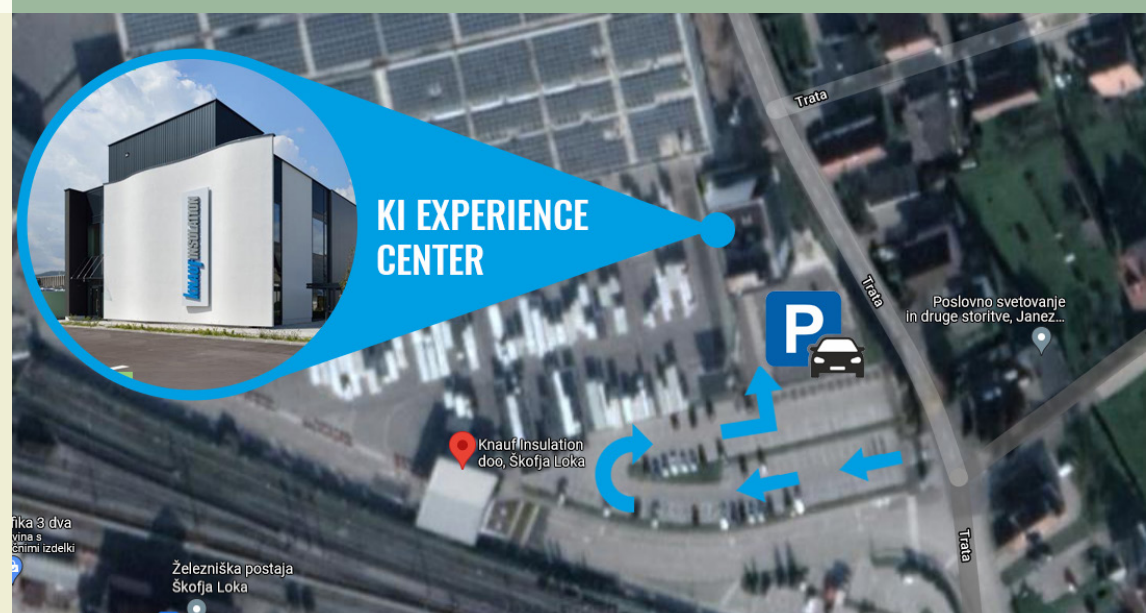

- 12:30 -13:00 Welcome and reception of the guests
- 13:00-14:00 LWGH as a frame for holistic approach to sustainability by putting people first (Dr. Saša Bavec)
- 14:00-14:30 Break
- 14:30-16:30 Sustainability - Reinvention: Powering up creativity for a resilient world (Dr. Nadya Zhexembayeva)
- 16:30-17:30 Networking and snack

### Location of the event:

#### KNAUF INSULATION EXPERIENCE CENTER – FIRST FLOOR

Knauf Insulation d.o.o.,  
Trata 32, 4220 Škofja Loka,  
Slovenia

Parking is available in front of the center.

Feel free to check the activities of **Living with a Green Heart Foundation** and **Reinvention Academy** on their websites and social media, and if you like the work they are doing you can support them by joining us.

In the meantime, please don't forget to tap into the 365 Days of Ancient Wisdom for the Wellbeing of Modern Man on our **LWGH LinkedIn page**.

Hope to see you all soon.

Warmly,

The LWGH team

LIVING WITH A GREEN HEART
